Features & Benefits

Feature

Green polyamide knitted glove Fully Double dipped black nitrile coating Elastic knitted wrist

Benefit

COMFORT The ergonomic seamless knit construction conforms better to the natural shape of the hand for greater strength and durability, superior comfort and ventilation. With their ergonomical design the gloves conform to the natural shape of the hand for a more comfortable fit and enable longer use and less fatigue. **RESISTANCE** The Polyamide yarn reduces linting for the most sensitive applications and can be easily laundered for extended use. The double dipping in nitrile provides an excellent protection to liquids (oil, water) and a very good grip thanks to micro capillaries which draws oil and water away from the surface. You need less pressure to handle an oily piece **HYGIENE** The dark colors make the glove less dirty.
