**Features & Benefits**

**Feature**

Nitrile glove on cotton interlock base Ventilated back Knitted wrist

**Benefit**

**COMFORT** Its nitrile formula has been selected to give the glove greater elasticity and unrivalled dexterity. The cotton interlock lining strengthens the glove's mechanical performance while absorbing hand perspiration for added comfort. The ventilated back improves the glove's breathability. Ribbed at the cuff, good wrist support is provided, thus eliminating risks of getting caught. **RESISTANCE** The nitrile coating ensures good chemical properties and outstanding mechanical properties (abrasion). The combined base and coating give the glove excellent abrasion resistance. It is particularly suitable for the handling of oils, greases and hydrocarbon by-products
